Index of Subjects

Acacia angustissima
Inoculation with adapted microbes versus addition of polythylene glycol as methods to alleviate toxicity of *Acacia angustissima* leaves in sheep (Saarisalo *et al.*) 445

Abelmoschus esculentus
Nitrogen fertilization of okra (*Abelmoschus esculentus*) in an inter-cropping system with cassava (*Manihot esculenta*) and maize (*Zea mays*) in south-western Nigeria (Olasantan), 325

Alkanes
Estimation of intake and digestibility of forage-based diets in group-fed dairy cows using alkanes as markers (Unal and Garnsworthy), 419

Ammonia
Survey of ammonia concentrations in livestock buildings (Seedorf and Hartung), 433

Arachis hypogaea
Forecasting growth and yield of groundnut (*Arachis hypogaea*) with a dynamic simulation model 'PNUTGRO' under Punjab conditions (Prabhjyot-Kaur and Hundal), 167

Azadirachta indica
Effects of termite damage to maize of seed extracts of *Azadirachta indica* and *Piper guineense* in farmers' fields (Umeh and Ivbijaro), 403

Bambara groundnut, *see Vigna subterranea*

Barley
Evaluation and inheritance of resistance to Russian wheat aphid in barley (Assad *et al.*), 297

Brassica napus
Effects of beet western yellows virus on growth and yield of oilseed rape (*Brassica napus*) (Jay *et al.*), 131

Calpain
Effect of growth path and breed on the calpain system in steers finished in a feedlot (Thomson *et al.*), 209

Cassava, *see Manihot esculenta*

Cattle
Supplementation of Zebu cattle grazing Sahelian pasture. I. Diet selection and intake (Schlecht *et al.*), 69
Supplementation of Zebu cattle grazing Sahelian pasture. II. Development of body mass and empty body composition (Schlecht *et al.*), 83
Effect of breed type, lactation and nutrition on the calving probability of cattle grazing subtropical pastures in Australia (Hennessy and Morris), 97

Chicory
The effect of wilting chicory on its voluntary feed intake and digestion by red deer (Tinworth *et al.*), 217

Cocksfoot *see Dactylis glomerata*

Dactylis glomerata
In vitro digestibility response of cocksfoot (*Dactylis glomerata* L.) to growth and defoliation: a simple model (Duru *et al.*), 379

Deer
The effect of wilting chicory on its voluntary feed intake and digestion by red deer (Tinworth *et al.*), 217

Digestible
Effect of intra-ruminal urea infusions and changing digestible organic matter intake on nitrogen kinetics in sheep fed rice straw (Hettiarachchi *et al.*), 109

Digestibility
In vitro digestibility, neutral detergent fibre, lignin and cell wall thickness in plant parts of three forage species (Wilman and Ahmad), 103
In vitro digestibility response of cocksfoot (*Dactylis glomerata* L.) to growth and defoliation: a simple model (Duru *et al.*), 379
Estimation of intake and digestibility of forage-based diets in group-fed dairy cows using alkanes as markers (Unal and Garnsworthy), 419

Digitaria decumbens
Comparison of fresh and dried *Digitaria decumbens* grass intake and digestion by Black-belly rams (Archimede *et al.*), 235

Downy mildew, *see Sclerospora graminicola*

Dry matter
Seed and pod development of autumn-sown, determinate white lupins (*Lupinus albus*) in relation to the assimilation and distribution of dry matter and nitrogen in crops grown at different densities (Milford *et al.*), 141
Development, growth and dry matter partitioning in bambara groundnut (*Vigna subterranea*) as influenced by photoperiod and shading (Brink), 159

Faba bean, *see Vicia faba*

Fertilizers
Effect of weed competition on growth, nutrient uptake and yield of wheat as affected by irrigation and fertilizers (Das and Yaduraju), 45
Fate and recovery of ^{15}N-labelled fertilizer urea applied to winter wheat in spring in the Canterbury region of New Zealand (Haynes), 125
Long-term effects of fertilizers and integrated nutrient supply systems in intensive cropping on soil fertility, nutrient uptake and yield of rice (Mohammad), 365

Flax, *see Linum usitatissimum*

Forage
In vitro digestibility, neutral detergent fibre, lignin and cell wall thickness in plant parts of three forage species (Wilman and Ahmad), 103

Geranium, *see Pelargonium graveolens*
Goat
Meat production from female goat kids compared with males (El Muola *et al.*), 223
Grasspea, *see Lathyrus sativus*
Groundnut, *see Arachis hypogaea*

Hormones
Correlations between lamb birth weight and the concentrations of hormones and metabolites in the maternal serum during pregnancy (Manalu and Sumaryadi), 227

***In vitro* gas production**
The modification of an *in vitro* gas production test to detect roughage related differences in *in vivo* microbial protein synthesis as estimated by the excretion of purine derivates (Blümmel *et al.*), 335
Irrigation
Effect of weed competition on growth, nutrient uptake and yield of wheat as affected by irrigation and fertilizers (Das and Yaduraju), 45

Lamb
Correlations between lamb birth weight and the concentrations of hormones and metabolites in the maternal serum during pregnancy (Manalu and Sumaryadi), 227
The effect of method of conservation of grass and supplementation on energy and nitrogen utilization by lambs (Kirkpatrick and Steen), 409
Lathyrus sativus
Linkage of random amplified polymorphic DNA, isozyme and morphological markers in grasspea (*Lathyrus sativus*) (Chowdhury and Slinkard), 389
Lens culinaris
Screening lentil (*Lens culinaris*) for cold hardiness under controlled conditions (Ali *et al.*), 313
Lentil, *see Lens culinaris*
Linum usitatissimum
Determination of cross-pollination in flax (*Linum usitatissimum*) using different experimental designs (Gürbüz), 31
Livestock
Survey of ammonia concentrations in livestock buildings (Seedorf and Hartung), 433
Lupinus albus
Seed and pod development of autumn-sown, determinate white lupins (*Lupinus albus*) in relation to the assimilation and distribution of dry matter and nitrogen in crops grown at different densities (Milford *et al.*), 141
Lycopersicon esculentum
Effects of plant density and mulching on the performance of late-season tomato (*Lycopersicon esculentum*) in southern Nigeria (Agele *et al.*), 397

Maize, *see Zea mays*
Malpighia emarginata
Pollination requirements of West Indian cherry (*Malpighia emarginata*) and its putative pollinators, *Centris* bees, in NE Brazil (Freitas *et al.*), 303
Manihot esculenta
Nitrogen fertilization of okra (*Abelmoschus esculentus*) in an inter-cropping system with cassava (*Manihot esculenta*) and maize (*Zea mays*) in south-western Nigeria (Olasantan), 325
Manures
Spring applied organic manures as a source of nitrogen for cereal crops: experiments using field scale equipment (Nicholson *et al.*), 353
Metabolic signalling
Metabolic signalling and the partitioning of resources in plant storage organs (Halford), 243
Metabolites
Correlations between lamb birth weight and the concentrations of hormones and metabolites in the maternal serum during pregnancy (Manalu and Sumaryadi), 227
Methane
A comparison of systems for measuring methane emissions from sheep (Murray *et al.*), 439
Microbial protein
The modification of an *in vitro* gas production test to detect roughage related differences in *in vivo* microbial protein synthesis as estimated by the excretion of purine derivates (Blümmel *et al.*), 335
Mungbean, *see Vigna radiata*

Nitrogen
Rotational set-aside; influence of vegetation and management for one-year plant covers on soil mineral nitrogen during and after set-aside at five sites in England (Froment *et al.*), 1
Effect of intra-ruminal urea infusions and changing digestible organic matter intake on nitrogen kinetics in sheep fed rice straw (Hettiarachchi *et al.*), 109
Seed and pod development of autumn-sown, determinate white lupins (*Lupinus albus*) in relation to the assimilation and distribution of dry matter and nitrogen in crops grown at different densities (Milford *et al.*), 141
Effect of soil moisture regime, nitrogen and modified urea materials on yield and quality of geranium (*Pelargonium graveolens*) grown on alfisols (Singh), 203
Split nitrogen application in potato: effects on accumulation of nitrogen and dry matter in the crop and on the soil nitrogen budget (Vos), 263
Spring applied organic manures as a source of nitrogen for cereal crops: experiments using field scale equipment (Nicholson *et al.*), 353
Nitrogen fixation
Effects of herbicides on nodulation, symbiotic nitrogen fixation, growth and yield of pea (*Pisum sativum*) (Singh and Wright), 21

Oilseed rape, *see Brassica napus*
Okra, *see Abelmoschus esculentus*

Partitioning of resources
Metabolic signalling and the partitioning of resources in plant storage organs (Halford), 243
Pea, *see Pisum sativum*
Pelargonium graveolens
Effect of soil moisture regime, nitrogen and modified urea materials on yield and quality of geranium (*Pelargonium graveolens*) grown on alfisols (Singh), 203
Phosphorus
Assessing the phosphorus status of winter wheat crops: inorganic orthophosphate in whole shoots (Bollons and Barraclough), 285

Piper guineense
Effects of termite damage to maize of seed extracts of *Azadirachta indica* and *Piper guineense* in farmers' fields (Umeh and Ivbijaro), 403
Pisum sativum
Effects of herbicides on nodulation, symbiotic nitrogen fixation, growth and yield of pea (*Pisum sativum*) (Singh and Wright), 21
Pod
Seed and pod development of autumn-sown, determinate white lupins (*Lupinus albus*) in relation to the assimilation and distribution of dry matter and nitrogen in crops grown at different densities (Milford *et al.*), 141
Potato
Split nitrogen application in potato: effects on accumulation of nitrogen and dry matter in the crop and on the soil nitrogen budget (Vos), 263
Causes for low tuber yields of transplants from *in vitro* potato plantlets of early cultivars after field planting (Lommen), 275
Purine
The modjfication of an *in vitro* gas production test to detect roughage related differences in *in vivo* microbial protein synthesis as estimated by the excretion of purine derivates (Blümmel *et al.*), 335
Preliminary studies on urinary excretion of purine derivatives and creatinine in yaks (Long *et al.*) 427

Rams
Comparison of fresh and dried *Digitaria decumbens* grass intake and digestion by Black-belly rams (Archimede *et al.*), 235
Rice
Long-term effects of fertilizers and integrated nutrient supply systems in intensive cropping on soil fertility, nutrient uptake and yield of rice (Mohammad), 365
Rice straw
Effect of intra-ruminal urea infusions and changing digestible organic matter intake on nitrogen kinetics in sheep fed rice straw (Hettiarachchi *et al.*), 109
Rotational
Rotational set-aside; influence of vegetation and management for one-year plant covers on soil mineral nitrogen during and after set-aside at five sites in England (Froment *et al.*), 1

Sclerospora graminicola
Role of edaphic factors in the development of downy mildew (*Sclerospora graminicola*) in pearl millet (Gupta and Singh), 61
Seed
Seed and pod development of autumn-sown, determinate white lupins (*Lupinus albus*) in relation to the assimilation and distribution of dry matter and nitrogen in crops grown at different densities (Milford *et al.*), 141
Sheep
Effect of intra-ruminal urea infusions and changing digestible organic matter intake on nitrogen kinetics in sheep fed rice straw (Hettiarachchi *et al.*), 109
A comparison of systems for measuring methane emissions from sheep (Murray *et al.*), 439
Inoculation with adapted microbes versus addition of polythylene glycol as methods to alleviate toxicity of *Acacia angustissima* leaves in sheep (Saarisalo *et al.*) 445
Simulation model
Forecasting growth and yield of groundnut (*Arachis hypogaea*) with a dynamic simulation model 'PNUTGRO' under Punjab conditions (Prabhjyot-Kaur and Hundal), 167
Soil
Split nitrogen application in potato: effects on accumulation of nitrogen and dry matter in the crop and on the soil nitrogen budget (Vos), 263
Soil moisture
The effect of soil moisture on light interception and the conversion coefficient for three landraces of bambara groundnut (*Vigna subterranea*) (Collinson, *et al.*), 151
Effect of soil moisture regime, nitrogen and modified urea materials on yield and quality of geranium (*Pelargonium graveolens*) grown on alfisols (Singh), 203
Sorghum
Comparative performance of sorghum hybrids and their parents under extreme water stress (Gangadhar Rao *et al.*), 53
Steers
Effect of growth path and breed on the calpain system in steers finished in a feedlot (Thomson *et al.*), 209
Sugar beet
The effects of drought on sugar beet growth in isolation and in combination with beet yellows virus infection (Clover *et al.*), 251
Sulphate
An investigation of the uptake and mobilization of sulphate in wheat using radiolabelled sulphur (Farahbakhsh *et al.*), 37
Sulphur
An investigation of the uptake and mobilization of sulphate in wheat using radiolabelled sulphur (Farahbakhsh *et al.*), 37
Sunflower
The nature of quantitative variation in a large set of early maturing sunflower test crosses (Hussain *et al.*), 175

Tannin
Genetic variability for feeding value of faba bean seeds (*Vicia faba*): Comparative chemical composition of isogenics involving zero-tannin and zero-vicine genes (Duc *et al.*), 185
The protection action of tannins against greenhouse whitefly in tomato seedlings (Białczyk *et al.*), 197
Termite
Effects of termite damage to maize of seed extracts of *Azadirachta indica* and *Piper guineense* in farmers' fields (Umeh and Ivbijaro), 403
Tomato
The protection action of tannins against greenhouse whitefly in tomato seedlings (Białczyk *et al.*), 197
Effects of plant density and mulching on the performance of late-season tomato (*Lycopersicon esculentum*) in southern Nigeria (Agele *et al.*), 397
Triticale
Combining ability for aluminium tolerance in triticale (Zhang *et al.*), 371
Tuber
Causes for low tuber yields of transplants from *in vitro*

potato plantlets of early cultivars after field planting (Lommen), 275

Vicia faba
Genetic variability for feeding value of faba bean seeds (*Vicia faba*): Comparative chemical composition of isogenics involving zero-tannin and zero-vicine genes (Duc *et al.*), 185

Vicine
Genetic variability for feeding value of faba bean seeds (*Vicia faba*): Comparative chemical composition of isogenics involving zero-tannin and zero-vicine genes (Duc *et al.*), 185

Vigna radiata
Effects of the multiple leaflet gene on agronomical and physiological characters of mungbean (*Vigna radiata*) (Kowsurat *et al.*), 321

Vigna subterranea
The effect of soil moisture on light interception and the conversion coefficient for three landraces of bambara groundnut (*Vigna subterranea*) (Collinson *et al.*), 151
Development, growth and dry matter partitioning in bambara groundnut (*Vigna subterranea*) as influenced by photoperiod and shading (Brink), 159

Virus
Effects of beet western yellows virus on growth and yield of oilseed rape (*Brassica napus*) (Jay *et al.*), 131

Virus, western yellows
Effects of beet western yellows virus on growth and yield of oilseed rape (*Brassica napus*) (Jay *et al.*), 131

Weed
Effect of weed competition on growth, nutrient uptake and yield of wheat as affected by irrigation and fertilizers (Das and Yaduraju), 45

West Indian Cherry, *see Malpighia emarginata*

Wheat
An investigation of the uptake and mobilization of sulphate in wheat using radiolabelled sulphur (Farah-bakhsh *et al.*), 37
Effect of weed competition on growth, nutrient uptake and yield of wheat as affected by irrigation and fertilizers (Das and Yaduraju), 45
Fate and recovery of ^{15}N-labelled fertilizer urea applied to winter wheat in spring in the Canterbury region of New Zealand (Haynes), 125
Assessing the phosphorus status of winter wheat crops: inorganic orthophosphate in whole shoots (Bollons and Barraclough), 285

Wheat aphid
Evaluation and inheritance of resistance to Russian wheat aphid in barley (Assad *et al.*), 297

Whitefly
The protection action of tannins against greenhouse whitefly in tomato seedlings (Białczyk *et al.*), 197

White Lupins, *see Lupinus albus*

Yaks
Preliminary studies on urinary excretion of purine derivatives and creatinine in yaks (Long *et al.*) 427

Zea mays
Nitrogen fertilization of okra (*Abelmoschus esculentus*) in an inter-cropping system with cassava (*Manihot esculenta*) and maize (*Zea mays*) in south-western Nigeria (Olasantan), 325
